

The Certified Cut 5 Rigger

PERFORMANCE STANDARDS

EN388

3542D

CERTIFICATION

NB2056
CEC40300

FEATURES

- ▶ Certified by SAI Global to Cut Level D under EN388:2016
- ▶ Certified by SAI Global to Cut Level 5 under AS/NZS 2161.3
- ▶ Sinomac engineered liner offers Cut Level D and Cut Level 5 protection in combination with a soft flexible feel maximising comfort and dexterity
- ▶ 360 degree cut resistance including extended wrist protection
- ▶ Wing thumb provides enhanced dexterity
- ▶ Double stitched in high wear areas and a stitch-free palm for durability
- ▶ Fast fit cuff
- ▶ Colour coded cuff for size identification
- ▶ Chemical free production for wearer peace of mind
- ▶ UPF50+ offering maximum sun protection

INDUSTRIES

- ▶ Mining
- ▶ Sheet metal work
- ▶ Maintenance
- ▶ Construction
- ▶ Glazing
- ▶ Oil & Gas
- ▶ General assembly
- ▶ Fabrication
- ▶ Machinery & equipment

SPECIFICATIONS

PART NO.	GWORX605
LINER	Sinomac
OUTER	Cowhide Leather

SIZING & FIT

AVAILABLE SIZES
S/7, M/8, L/9, XL/10, 2XL/11

DEXTERITY LEVEL

Maximum Dexterity Level 3
Certified under AS/NZS 2161.2

PACKAGING

12 pairs per inner pack
72 pairs per carton

REACH COMPLIANCE

Required Safe pH Level
Certified under AS/NZS 2161.2

AZO Dye and Irritant Chemical Free
Certified under AS/NZS 2161.2

SUN PROTECTION

UPF50+ Sun Protection
Pass under AS/NZS 4399 Sun Protective Clothing.
Tested by Australian Radiation Protection And Nuclear Safety Agency (ARPANSA).

GLOVE CARE

Do not wash these gloves
Remove excess dirt manually
Drip dry if wet

KEY TECHNOLOGIES

SINOMAC SYNTHETIC

Force360's exclusive Sinomac engineered liner not only offers Cut Level D and Cut Level 5 protection, but brings coolness to the hand in combination with a soft, flexible feel that maximises wearer comfort and dexterity.

WHY CERTIFY A GLOVES MECHANICAL SCORES?

Unknown to most people, gloves in Australia are almost always sold as compliant to European Standards. They will show a European Standards mark and mechanical score for example -'EN388 4542X'. They may state in their literature 'Compliant to European Standards' or 'meets European Standards'.

This is NOT the same as being certified to European Standards.

Compliant gloves can be simply marked with a particular cut level score of 5 or F for example; and the wearer must accept this claim. No further proof or validation from the glove manufacturer is required. For Force360 this is not acceptable. Hand injuries are commonplace and simply making compliance claims is just not enough to guarantee a glove's mechanical score, or it's protection level.

Asking a trusted and independent notifying body to certify the mechanical scores, guarantees that the scores are accurate and performance will meet this certification.

Force360 has entrusted **SAI Global**, the worlds' leading Standards Certifier to ensure that all mechanical scores are validated. This certification process ensures manufacturing processes and facilities, test certificates, and the product itself are audited & scrutinized so that all claims are accurate. The notifying body in affect becomes a gatekeeper of hand protection for the wearer.

Force360's entire hand protection range is certified by SAI Global to the latest European and Australian Standards.

Certified products must show a license number issued by the notifying body in addition to the EN388 mechanical scores.
