

# Endurance Certified Rigger

DESIGNED  
TO PROTECT

FORCE  
360

FPR620

## GENERAL DESCRIPTION

Force360 now offers a Premium Australian Standards Certified riggers glove. The Endurance Rigger is made from premium quality assured leather for maximum comfort. Kevlar stitching provides exceptional abrasion resistant seams for prolonging glove life and the keystone thumb improves movement, gripping and dexterity.

## KEY TECHNOLOGY

## FEATURES

- ▶ AS/NZS 2161.3 certified mechanical score claims
- ▶ AS/NZS 2161.2 certified azo dye, chromium and chemical free
- ▶ AS/NZS 2161.2 certified sizing and dexterity
- ▶ Double palm extends product usage
- ▶ Quality Assured Comfort Leather
- ▶ Dupont Kevlar stitching ensures maximum strength, product endurance and heat resistance
- ▶ Keystone thumb improves movement, gripping and dexterity

## CONSTRUCTION MATERIALS

- ▶ 94% 1mm Cowhide Leather
- ▶ 4% Dupont Kevlar
- ▶ 2% Elastic

## STANDARDS & CERTIFICATION

Many gloves in the market today claim compliance to EN388 and show a mechanical score symbol. However with many glove brands sourcing from multiple factories, inconsistencies can occur and such compliance claims may not always be able to be validated. Ultimately this may put the glove wearer at risk.

**Force360** source their entire FPR gloves from a single manufacturing partner to ensure consistency and reliability of product. Force360 have recognized the weakness of compliance claims and have engaged **SAI Global** to certify their products and manufacturing facilities for complete peace of mind.

**Force360** FPR gloves are certified by **SAI Global** to Australian Standards AS/NZS 2161.3:2005 (EN388) Mechanical Performance. Mechanical risk is the risk caused by abrasion, blade cut, tear and puncture to the wearer of the glove. A tested item is given a performance rating of 1 to 4 (lowest to highest) on some or all of the listed categories. The 'blade cut resistance' test is an exception as it measures from 1 to 5.

For **Certified Australian Standard** protection, only wear gloves with the Red Tick Tower.

## USES

- ▶ Construction and mining
- ▶ General purpose utility work
- ▶ Truck and transport industry
- ▶ Rigging
- ▶ Timber & forestry

## PART NUMBER | SIZES

GFPR620 | S, M, L, XL, XXL

## GLOVE CARE

Do not wash these gloves  
Remove excess dirt manually  
Drip dry if wet

## PACKAGING

1 pair per hang cell  
12 pair per inner pk  
72 pair per ctn
