

# Cut Resistant Food Grade

WHITE 13 GAUGE

## PERFORMANCE STANDARDS

EN388

2X43D

## CERTIFICATION

NB2056  
CEC40300

## FEATURES

- ▶ Force360's exclusive Sinomac engineered yarn not only offers Cut level 5 protection but brings coolness to the hand in combination with a soft flexible feel for maximum comfort and dexterity
- ▶ Knitted 13 gauge liner provides excellent dexterity for general purpose work
- ▶ 360 degrees hi-visibility yellow provides additional visual wearer safety
- ▶ Ambidextrous design that allows the glove to be worn on either hand or reversed
- ▶ May be used as a liner glove
- ▶ Available in white (FPR203), blue (FPR204), hi-vis yellow (FPR206) and hi-vis orange (FPR207) for specific tasks to avoid cross contamination
- ▶ Keeping hands cool is critical for comfort and improved wearer compliance. Only selected materials that allow air flow are used to ensure 360 degree air circulation and enhanced breathability
- ▶ Certified by SAI Global to Cut Level 5 under AS/NZS2161.3
- ▶ Certified by SAI Global to Cut Level D under EN388:2016

## INDUSTRIES

- ▶ Food Processing
- ▶ Plastics Manufacturing

## SPECIFICATIONS

**PART NO.** GFPR203  
**LINER** Sinomac Synthetic

## SIZING & FIT

**AVAILABLE SIZES**  
S/7, M/8, L/9, XL/10, 2XL/11

## DEXTERITY LEVEL

Maximum Dexterity Level 5  
*Certified under AS/NZS 2161.2*

## PACKAGING

1 glove per polybag  
12 gloves per inner pack  
144 gloves per carton

## REACH COMPLIANCE

**Required Safe pH Level**  
*Certified under AS/NZS 2161.2*

**AZO Dye and Irritant Chemical Free**  
*Certified under AS/NZS 2161.2*

## GLOVE CARE

Machine Wash <40°C  
Cold Water Rinse  
Dryer <60°C

**KEY TECHNOLOGIES**

**SINOMAC SYNTHETIC**

Force360's exclusive Sinomac engineered yarn not only offers Cut Level 5 protection, but has a soft, flexible feel that maximises wearer comfort and dexterity.

**360 BREATHABILITY**

Keeping hands cool is critical for comfort and improved wearer compliance. Only selected materials that allow air flow are used to ensure 360 degree air circulation and enhanced breathability.

**FOOD SAFE**

The components of this glove are food contact approved according to Directive 2002/72EC for safe handling of meats, fish, shellfish and vegetables.

**WHY CERTIFY A GLOVES MECHANICAL SCORES?**

Unknown to most people, gloves in Australia are almost always sold as compliant to European Standards. They will show a European Standards mark and mechanical score for example -'EN388 4542X'. They may state in their literature 'Compliant to European Standards' or 'meets European Standards'.

**This is NOT the same as being certified to European Standards.**

Compliant gloves can be simply marked with a particular cut level score of 5 or F for example; and the wearer must accept this claim. No further proof or validation from the glove manufacturer is required. For Force360 this is not acceptable. Hand injuries are commonplace and simply making compliance claims is just not enough to guarantee a glove's mechanical score, or it's protection level.

Asking a trusted and independent notifying body to certify the mechanical scores, guarantees that the scores are accurate and performance will meet this certification.

**Force360** has entrusted **SAI Global**, the worlds' leading Standards Certifier to ensure that all mechanical scores are validated. This certification process ensures manufacturing processes and facilities, test certificates, and the product itself are audited & scrutinized so that all claims are accurate. The notifying body in affect becomes a gatekeeper of hand protection for the wearer.

**Force360's entire hand protection range is certified by SAI Global to the latest European and Australian Standards.**

Certified products must show a license number issued by the notifying body in addition to the EN388 mechanical scores.
