

MIRAGE SMOKE POLAR

FPR901

GENERAL DESCRIPTION

The Force360 Force Performance Range (FPR) of safety eyewear introduces MIRAGE. The Mirage combines form with function in a fashionable safety frame and polarised lenses.

KEY TECHNOLOGY

LENS OPTIONS

ADDITIONAL FEATURES

- ▶ European fashion inspired design
- ▶ Glossy white frame finish
- ▶ Durable and resilient polycarbonate lens and sidearm build
- ▶ Base 8 curve provides exceptional distortion free clarity

RADIATION GUIDE

UVA/UVB 280-380nm	UV light rays from the sun are invisible to the eye yet can cause serious damage including corneal blistering, cataracts, premature aging, conjunctivitis and partial blindness
Visible Light 380-780nm	Intense visual bright light can cause retina damage and create visual perception issues
Blue Light 380-500nm	Blue light rays from the sun or artificial lighting like neons, cause eye strain and fatigue. Colours and definition can be adversely affected. In extreme cases blindness can occur
Infra Red Light 780-1400nm	Infra Red rays from the sun or mechanically heat generating applications like gas welding can cause eye dryness and corneal damage, macular degeneration and blindness

STANDARDS & CERTIFICATION

Force360 source their entire FPR safety eyewear from a single manufacturing partner to ensure consistency and reliability of product. Most importantly Force360 have taken the further step by engaging SAI Global to periodically audit and certify both the manufacturing process and the products. All of Force360's FPR safety spectacles are certified to AS/NZS 1337 and are medium impact approved. Force360 recommends that you only wear safety eyewear that displays the Red Tick Tower for genuine Australian Standards Certification.

PART NUMBER

EFPR901

EYEWEAR CARE

Force360 recommends eyewear is cleaned using Force360 exclusive FogOff non alcohol spec wipe. Part number EFPR950.

PACKAGING

1 pair per poly bag
12 pairs per retail box
36 pairs per carton

WEIGHT
