

## Guardian+

SHADE 5 LENS

### LENS OPTIONS

### FEATURES

#### Goggle

- ▶ Certified medium impact rated protection to AS/NZS 1337.1:2010
- ▶ Diamond Tech Hardcoat is extremely scratch resistant and resists acid and solvent degradation
- ▶ HydroTech AF is a washable hydrophilic coating that prevents fog forming on the lens. A great coating for hot and humid conditions
- ▶ Base 9 curve provides excellent optical clarity and an extended wrap for increased side protection
- ▶ UV400 Polycarbonate lenses offer the wearer the best protection against UVA and UVB damaging rays
- ▶ Wide vision clear polycarbonate lens
- ▶ Form fitting TPR provides a comfortable positive face seal
- ▶ Elastic head strap is easily adjustable and has quick release clip for ease of use
- ▶ Indirect vents allow air flow and reduces fogging

#### Visor

- ▶ Protection from the eyes is extended to the entire face with the polycarbonate visor
- ▶ V Pivot allows the face visor to be lifted and positioned above the goggle when not in use allowing easy access to the face when required
- ▶ Exhale vents in the visor aid in humidity reduction and improve air circulation

**PART NO.** EFPR862

### EYEWEAR CARE

Force360 recommends eyewear is cleaned using Force360's exclusive FogOff non alcohol spec wipe. Part number EFPR950.

### PACKAGING

10 pairs per carton

### WEIGHT

1	2	3	4	5	5+
16g	17-20g	21-25g	26-30g	31-35g	36g+

## KEY TECHNOLOGIES

### MEDIUM IMPACT

Certified medium impact rated protection to AS/NZS 1337.1:2010.

### UV400

UV400 Polycarbonate lenses offer the wearer the best protection against UVA and UVB damaging rays. 100% protection is the standard across the entire Force360 FPR eyewear range.

### V PIVOT

Force360's V Pivot is unique to the Guardian+ range of goggles. The face visor can be lifted and positioned above the goggle when not in use allowing easy access to the face when required.

### DIAMOND TECH HARDCOAT

Force360 uses its own Diamond Tech Hardcoat on all FPR lenses. Diamond Tech Hardcoat is extremely scratch resistant and resists acid and solvent degradation as well as scratches from dusts and debris.

### ELEMENT SEAL

Force360's Element Seal provides protection from dust and harsh winds that can compromise standard safety spectacles. The Element Seal is made from high quality EVA ensuring a soft and positive seal on the skin.

## RADIATION GUIDE

<b>UVA/UVB 280-380nm</b>	UV light rays from the sun are invisible to the eye yet can cause serious damage including corneal blistering, cataracts, premature aging, conjunctivitis and partial blindness
<b>Visible Light 380-780nm</b>	Intense visual bright light can cause retina damage and create visual perception issues
<b>Blue Light 380-500nm</b>	Blue light rays from the sun or artificial lighting like neons, cause eye strain and fatigue. Colours and definition can be adversely affected. In extreme cases blindness can occur
<b>Infra Red Light 780-1400nm</b>	Infra Red rays from the sun or mechanically heat generating applications like gas welding can cause eye dryness and corneal damage, macular degeneration and blindness

## STANDARDS & CERTIFICATION

Force360 source their entire FPR of safety eyewear from a single manufacturing partner to ensure consistency and reliability of product. Most importantly Force360 have taken the further step by engaging SAI Global to periodically audit and certify both the manufacturing process and the products. All of Force360's FPR safety spectacles are certified to AS/NZS 1337. All of Force360 FPR safety spectacles are medium impact approved under the AS/NZS 1337. For complete security and peace of mind Force360 recommends you only look for safety eyewear that display the Red Tick Tower for genuine Australian Standards certification.
